SLEEP LIKE A KARDASHIAN

Did you hear about the mother of four from Los Angeles [who swears by CBD](#) to help her relax and get a good night's sleep? Between taking care of the kids and managing a growing business, she'll enjoy gummies before catching a few Z's.

You might know her better as Kim Kardashian, but you don't need to be a celebrity to sleep like one.

*"How do I do it all? It is exhausting. I just say CBD,"
Kardashian told PEOPLE recently.*

*"I got into CBD a few months ago. It's saved my life.
Even to sleep at night. I like the gummies. I will just use*

a little bit and fall asleep. I don't think I would take a Xanax or an Ambien again."

Here at Seabedee, we want you to achieve all your health goals as naturally as possible and love how great CBD is for insomnia!
